

Michalis Mikellis

Software Developer with hands-on experience in C# and the .NET ecosystem, working on both modern and legacy production systems. Experienced in ASP.NET Core APIs, ASP.NET Web Forms, SQL Server, and enterprise applications, with a strong focus on reliability, collaboration, and continuous learning. Recently introduced into the Angular/JavaScript/TypeScript frontend frameworks while extending the .NET/.NET Framework backend tech stack.

EXPERIENCE

Software Developer · KTMA & Citrus

2026 – now

- Develops and maintains the frontend and backend of enterprise client-facing applications (POS system, clinic management system, order & inventory tracking system, customer portal) using Angular (TypeScript) and C# Windows Forms user interfaces, with .NET Framework WCF backend endpoint services and ASP.NET Web APIs for backend operations.
- Maintains and extends legacy .NET Framework backend applications using Microsoft SQL Server databases, ADO.NET (DataSets, Table Adapters, Data Adapters), and WCF Services.

On-premises vendor services · Eurobank Limited

2024 – 2025

- Provided vendor services for Eurobank Ltd — performed maintenance, troubleshooting, and designed/developed feature updates for an ASP.NET Web Forms (ASPX) banking system application.
- Developed and maintained ASP.NET Web Forms applications with SQL Server back-end logic (views, stored procedures), code-behind models (LinqToSQL), and Crystal Reports for business reporting.
- Worked closely with international strategic and business partners to align requirements and deliver joint solutions, strengthening cross-cultural communication, collaboration, and long-term professional relationships.

Junior Software Developer · Patsoft Limited

2023 – 2025

- Developed and maintained enterprise applications using .NET Windows/Web Forms with VB.NET and C#, based on specific design specifications.
- Developed and maintained ASP.NET Web APIs used in enterprise systems, supporting data exchange and core application functionality.
- Designed and managed Microsoft SQL Server/Azure (cloud) databases — writing queries, views, triggers, stored procedures — and integrated SQL databases with .NET applications using Entity Framework and LINQ for CRUD operations.

Junior Customer Support · Playtech Limited

2022

- Assisted remotely with issues regarding gambling terminal machines, repairing them where possible using remote software.
- Resolved issues on gambling terminal machines and user logins, and manually resettled betting tickets that were falsely settled.
- Experienced with ticketing system tools such as Jira and Confluence for resolving technical issues.
